

# ATP – Driver Setup Procedure

Document version: 1.0

Release date: 4 October 2017

## Document releases

Release date	Version	Changes
4 October 2017	1.0	

## When to use this document

This document is used to setup the new payment driver in the ATP Platform.

## Destination

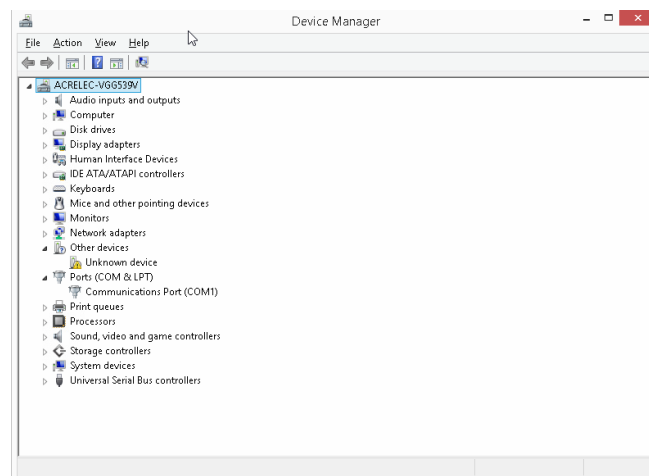

This document is intended for internal usage.

## Terminal Connection Setup

Before connecting the terminal make sure you have the following information from Ingenico: Terminal ID, Communication Server 1 and Communication Server 2.

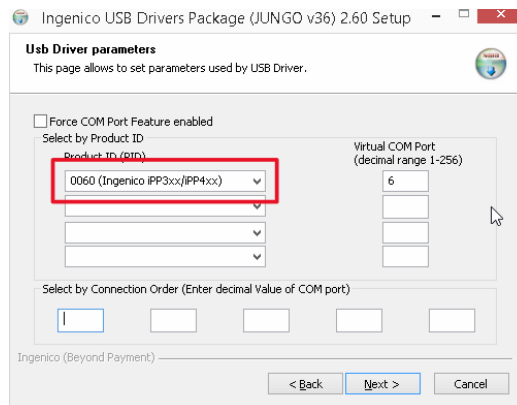

To use the terminal you need to connect it to the kiosk.

Check in device manager if the device is recognized by windows or appears in Other devices

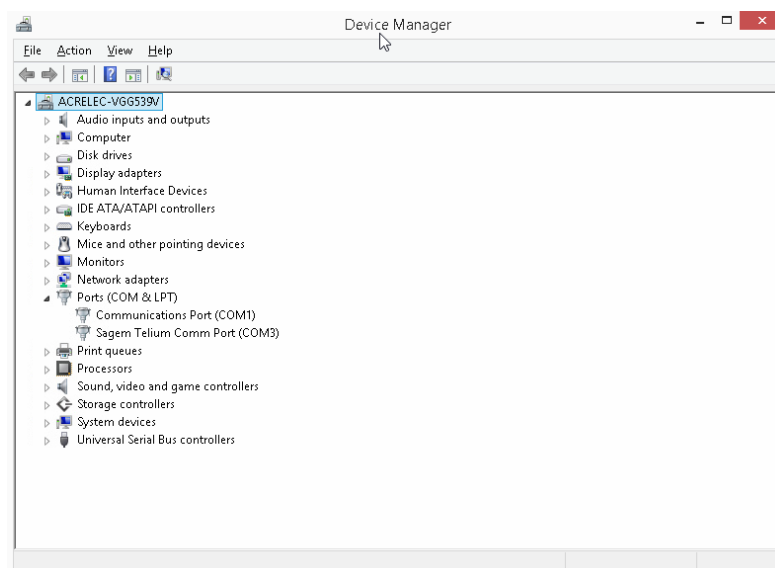

If it appears under Other devices you need to install the driver located at  
**C:\Acrelec\Core\Peripherals\Payments\[PaymentName]\[PaymentVersion]\WindowsDriver**

When installing the driver, make sure that you select the correct Ingenico terminal

After install, a new COM port should be available in Device Manager:

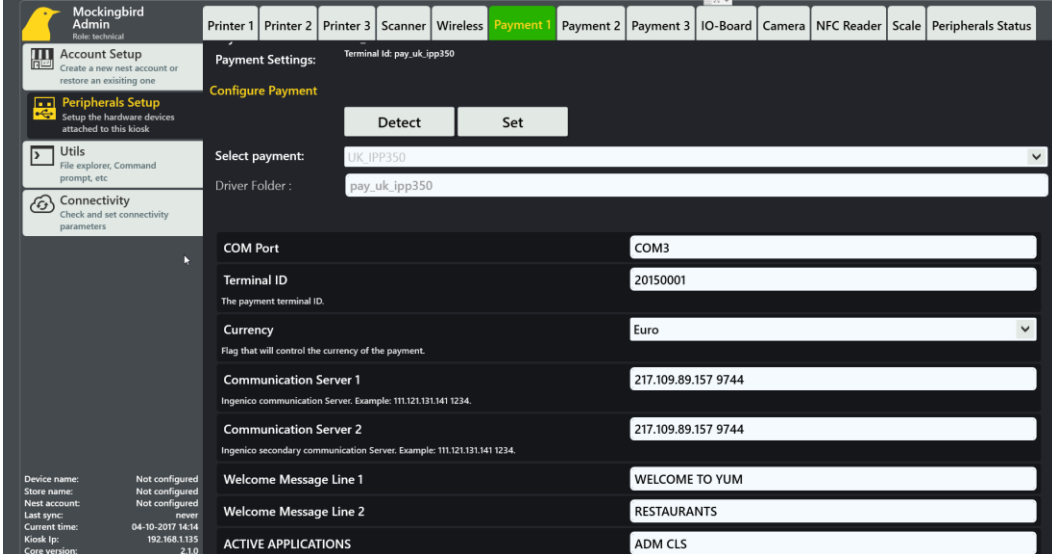

## ATP SETUP

Open the Admin and login.

Go to the “Peripherals” Tab > select one “Payment” Tab and select “UK\_IPP350”.

Fill the required fields:

The screenshot shows the Mockingbird Admin interface. The top navigation bar includes tabs for Printer 1, Printer 2, Printer 3, Scanner, Wireless, Payment 1 (selected), Payment 2, Payment 3, IO-Board, Camera, NFC Reader, Scale, and Peripherals Status. The left sidebar contains links for Account Setup, Peripherals Setup, Utils, and Connectivity. The main content area is titled 'Payment Settings' and 'Configure Payment'. It includes a 'Detect' button, a 'Set' button, a 'Select payment' dropdown menu set to 'UK\_IPP350', and a 'Driver Folder' field set to 'pay\_uk\_ipp350'. Below these are several configuration fields: 'COM Port' (COM3), 'Terminal ID' (20150001), 'Currency' (Euro), 'Communication Server 1' (217.109.89.157 9744), 'Communication Server 2' (217.109.89.157 9744), 'Welcome Message Line 1' (WELCOME TO YUM), 'Welcome Message Line 2' (RESTAURANTS), and 'ACTIVE APPLICATIONS' (ADM CLS). A status bar at the bottom left shows device information: Device name: Not configured, Store name: Not configured, Nest account: Not configured, Last sync: never, Current time: 04-10-2017 16:14, Kiosk Ip: 192.168.1.135, Core version: 2.1.0.
